CAREER PREPARATION

for Post-doctoral and advanced Pre-doctoral trainees

In IMPACT, you will be challenged to refine your research focus and to identify the most promising paths to achieve real-world impact. Expert faculty from a broad range of institutions and companies in the Boston area will help you reflect on your work to both gain new insights into your approach, as well as learn how to share your story with others. IMPACT alumni feel energized and a new sense of direction for their work.

Why join IMPACT

Group mentoring, 1:1 advising, and community engagement will help you:

Gain a broader perspective on your research and career

Heighten the potential of your research to achieve real-world impact

Identify actionable opportunities to strengthen your work's focus

Express your research mission with clarity and power to attract collaborators and support

Expand your professional network for lasting, valuable relationships

MIT IMPACT program

Applications due December 17, 2018

Apply at bit.ly/impact19a

The IMPACT experience:

- ▶ Challenging and motivating
- ▶ Constructive and collegial
- ▶ Engaging and energizing

"IMPACT has challenged me to go beyond the lab to communicate the importance of my research to a broad audience. Through this process I have built connections

with other scientists, industry leaders, and biotech thought leaders."

Di Feng, IMPACT alumna and Peer Mentor

Timeline

- ▶ Applications due: December 17, 2018
- ▶ Interviews: January 10 (morning)
- ▶ Notifications: Mid-January
- ▶ Program schedule: Approximately 11 (TBD) three-hour sessions Tuesday evenings, February through early June
